iParty®, a new generation of connected & portable karaoke machines to sing, dance and party all night long!

Lexibook hits the trend and launches iParty®, a very new high-tech and connected range created for all music, dance and party lovers. The karaoke phenomenon is appealing and proved a smash success on TV, the internet and our smartphones with sing and dance apps among the most downloaded apps! With the return of singing TV shows this September, iParty® karaokes are just on time to join your intense music moments!

With iParty®, the Group Lexibook expands its brand portfolio that already features a very promising new brand. The newly acquired brand has a strong graphic identity mainly thanks to a neat packaging charter and trendy iconographic logo:

With iParty® and its karaoke systems, be the star! Plug your mic in the karaoke, pair your smartphone via Bluetooth® and the stage is yours! You can sing and dance on your favorite tracks with friends or family. Specially designed to be carried around, you can sing, dance and party or simply listen to music everywhere, anytime!
