

**Lexibook launches its Mini HD Home Cinema, the video projector for sharing family moments**

Lexibook today launches its new video projector, with incredible features packed into such a compact design. Thanks to its small size and high-quality projection, this new versatile projector provides all of the family’s entertainment, allowing them to watch TV and movies, or play video games, on a giant screen.

This video projector is equipped with

**Contact** – Delphine LE LAN - +33 (0)1 73 23 23

exceptional connectivity to project movies, TV, or video games from various sources: USB port, micro SD card slot (up to 32 GB), HDMI, and AV ports. It features an Aux-in port to connect headphones or speakers and an HDMI port to connect to more peripherals than ever, including TV, computer, Nintendo Switch, or other consoles.

**Designed for the whole family**, it protects kids from the screens of smartphones or tablets with a softer projection at a greater distance. The remote control is included to fully enjoy family movie nights. This portable video projector makes it possible to enjoy the cinema at home or on-the-go thanks to its small size.

This projector is available at selected retailers and online stores at a suggested retail price of £73.00. Reference: PRJ150
